Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) OR THIRTY (30) DAYS, WHICHEVER IS LONGER, FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

Status

DETAILED ACTION

1. This Office action is in response to Applicant's amendment filed on 01/03/2007.
2. Claims 1, 2, 5, 9, 10, and 14-17 are pending.

Claim Rejections - 35 USC § 103

3. The following is a quotation of 35 U.S.C. 103(a) which forms the basis for all obviousness rejections set forth in this Office action:

(a) A patent may not be obtained though the invention is not identically disclosed or described as set forth in section 102 of this title, if the differences between the subject matter sought to be patented and the prior art are such that the subject matter as a whole would have been obvious at the time the invention was made to a person having ordinary skill in the art to which said subject matter pertains. Patentability shall not be negated by the manner in which the invention was made.

4. Claims 1, 2, 5, 9, 10, and 14-17 are rejected under 35 U.S.C. 103 (a) as being unpatentable over Stefik U.S. Pat. No. 5,629,980 in view of Nagai et al U.S. Pat. No. 6,754,442.

As per claims 1, 2, 5, 9, 10, and 14-17 substantially discloses in fig 15 as well as associated text, a digital rights management system wherein a user purchases the rights to render a digital work based on a predetermined amount of time. See at least items 1512-1515. Stefik also discloses adding sets of rights i.e. extending the time that a digital work may be rendered. See at least fig 15, item 1509 as well as related text. Stefik inherently discloses a counter that measures time elapsed, and preventing further use of a paid file when the time allotted for use runs out.

Stefik fails to explicitly disclose Applicant's newly added limitation wherein said an external medium as an output time management program. However, Nagai discloses a

method/apparatus for recording/reproducing digital data. The recording medium or external factor or medium for reproducing from said disk-like recording medium during the time t_p fails to reach the capacity of the data signal and the audio signal continuously output during the time t . Therefore, the external factor of Nagai is interpreted as an external medium as an output time t_p (see., Nagai, abstract claim 7. Accordingly, it would have been obvious to a person of ordinary skill in the art the time the invention was made to modify the rights management of Stefik by including the limitation detailed above as taught by Nagai because this would control the time duration of the medium for recording.

RESPONSE TO ARGUMENTS

5. Applicant's arguments filed on 01/03/2007 have been fully considered but they are moot in view of new ground (s) of rejection. Necessitated by amendment.

Conclusion

6. Applicant's amendment necessitated the new ground(s) of rejection presented in this Office action. Accordingly, **THIS ACTION IS MADE FINAL**. See MPEP § 706.07(a). Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire **THREE MONTHS** from the mailing date of this action. In the event a first reply is filed within **TWO MONTHS** of the mailing date of this final action and the advisory action is not

mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the date of this final action.
